

CHARTERED
VETERINARY
PRACTITIONER®

Are you ready to elevate your veterinary expertise and provide exceptional care?

Explore our comprehensive online learning course tailored for veterinary professionals seeking to integrate Evidence-Based Veterinary Medicine (EBVM) and contextual care to make informed judgments in their veterinary practice.

“ I thoroughly enjoyed learning how to critically assess scientific literature. I have a better idea of why EBVM should be utilised, and had my eyes opened to the lack of evidence-based data there is in the veterinary world. ”

AVA CVP Student, SELTS 2024

EBVM in Clinical Practice

What you'll learn

- 1. EBVM in Clinical Practice:** Master the principles of EBVM, learn to formulate a clinical question, search and critically appraise scientific literature and evaluate the evidence for that clinical question.
- 2. Contextual Care:** Understand the importance of tailoring veterinary care to individual pet and client needs, considering factors such as socioeconomic status, cultural beliefs, and emotional considerations.
- 3. Incorporate EBVM into Practice:** Integrate EBVM and contextual care to enhance decision-making in veterinary care and make informed judgments incorporating the needs of yourself, your client, and your patient using an evidence-based approach.

8 modules of
expertly curated
content

Why choose our course

- ✓ **CPD Points:** This course is eligible for 50 CPD and may be credited toward the AVA Chartered Veterinary Practitioner professional accreditation program. Receive a certificate upon completion, showcasing your commitment to personal and professional development.
- ✓ **Flexible Learning:** Study online from anywhere in Australia with a cohort of like-minded professionals with 24/7 access to comprehensive modules, practical exercises, and regular facilitated sessions to consolidate your learning and grow your network.
- ✓ **Relevant and Impactful:** Rapidly integrate critical evaluation skills to optimise your day-to-day practice.
- ✓ **Expert Guidance:** Access insights from experienced veterinarians and researchers who are leaders in EBVM and client-centered care.
- ✓ **Practical Application:** Engage in case studies, learning activities, and interactive discussions that simulate real-world scenarios encountered in veterinary practice.
